PROJECTS

Nepali Speech Recognition

The Nepali Speech Recognition project is a mobile application designed to convert spoken Nepali language into textual format. This application aims to assist individuals with disabilities who may have difficulty in understanding or communicating in Nepali. Additionally, it serves as a valuable tool for those learning Nepali as a secondary language. By leveraging advanced speech recognition technology, the app allows users to speak in Nepali and instantly converts their speech into written text. This enables users to easily comprehend and interact with the Nepali language, improving their overall communication and language learning experience. The Nepali Speech Recognition app provides an inclusive solution, bridging the gap between spoken and written Nepali, and empowering individuals with disabilities to effectively communicate and participate in various aspects of daily life.

Order your Coffee

This project aims to create a simple and user-friendly website that allows customers to conveniently order their favorite coffee beverages online. The website will serve as a virtual storefront, providing customers with a seamless and hassle-free way to browse the menu, customize their orders, and complete the purchase process.

Online Futsal Booking System

The Online Futsal Booking System is a website designed to streamline the process of booking futsal grounds. With this user-friendly platform, futsal enthusiasts can easily browse through available futsal grounds, check their availability, and make bookings conveniently through the website. . The system provides a comprehensive of futsal grounds, including details such as location, facilities, and pricing. Users can also view real-time availability and select their preferred date and time slots. By eliminating the need for manual bookings and providing a centralized platform, the Online Futsal Booking System aims to enhance accessibility and convenience for futsal enthusiasts, making the process of reserving a futsal ground hassle-free and efficient.
